Why am I in hospital?

The Doctors and Nurses want me to stay in hospital.

This is because I am not well

A lot of things have happened to make me unwell.
The Doctors and Nurses need to find out what is wrong with me.

They need to find out how to help me.

The Nurses and Doctors need to talk to me and watch me.
The Doctors and Nurses are worried that I might hurt myself.

The Doctors and Nurses want me to stay in hospital until I am better.
